

Fishery Conservation and Management

§ 635.47

vessel or vessels of the exporting nation.

[67 FR 70027, Nov. 20, 2002]

§ 635.46 Import requirements for swordfish.

(a) *General.* To facilitate enforcement of domestic regulations, a swordfish, or part thereof, less than the minimum size specified at § 635.20(e) may not be imported, or attempted to be imported, into the United States unless it is accompanied by the swordfish certificate of eligibility as specified in paragraph (b) of this section attesting either that the swordfish was harvested from an ocean area other than the Atlantic Ocean or that the fish part was derived from a swordfish, harvested from the Atlantic Ocean, that weighed at least 33 lb (15 kg) dw at harvest.

(b) *Swordfish COE.* (1) A shipment of swordfish in any form offered for import into the United States, directly or indirectly, from any country is admissible only if accompanied by a swordfish COE. A swordfish COE is required for swordfish identified by any item number from the Harmonized Tariff Schedule including but not limited to the following:

(i) Fresh or chilled swordfish steaks, No. 0302.69.20.41.

(ii) Fresh or chilled swordfish, excluding steaks, No. 0302.69.20.49.

(iii) Frozen swordfish steaks, No. 0302.79.20.41.

(iv) Frozen swordfish, excluding fillets, steaks and other fish meat, No. 0302.79.20.49.

(v) Frozen swordfish, fillets, No. 0304.20.60.92.

(2) The swordfish COE required under this section must indicate, in English, the flag state of the harvesting vessel, the ocean area of harvest and, if the shipment contains swordfish or parts thereof less than the minimum size specified at § 635.20(e), the reason such swordfish is eligible for entry, as specified in paragraph (a) of this section. The swordfish COE shall be attached to the invoice accompanying the swordfish shipment from the point of original export up to and including the point of first transaction in the United States.

(3) The swordfish COE required under this section must include, in English,

the date, the name, the title of the governmental official or other authorized person, and the name of the authorizing government agency of the country exporting the swordfish to the United States. The swordfish COE must be signed and dated by that governmental official or authorized person with an official government seal affixed, thus validating the information on the COE. (4) A swordfish COE may refer to swordfish taken from only one ocean area of harvest (i.e., Atlantic, Pacific, Indian) and by vessels under the jurisdiction of only one nation. If a shipment contains swordfish taken from more than one ocean area, or swordfish harvested by several vessels from different flag states, a separate swordfish COE must accompany the shipment for each ocean area of harvest and for each flag nation of the harvesting vessels.

(5) A model swordfish COE can be obtained by contacting the Division Chief. An equivalent form may be used provided it contains all the information required under this section.

(6) The importer must write the Customs Form 7501 entry number on each swordfish COE and attach to the dealer report form all swordfish COEs from shipments that are recorded on the bi-weekly dealer report form.

§ 635.47 Ports of entry.

NMFS shall monitor imported shipments of bluefin tuna, bigeye tuna, and swordfish into the United States. If NMFS determines that the diversity of handling practices at certain ports at which any of these species is being imported into the United States allows for circumvention of the bluefin tuna statistical document, swordfish Certificate of Eligibility requirements, or trade restrictions for these species or for Atlantic bigeye tuna, NMFS may designate, after consultation with the U.S. Customs Service, those ports at which these species may be lawfully imported into the United States. NMFS shall announce the names of such designated ports and the effective dates of entry restrictions through publication of a notice in the FEDERAL REGISTER.
